

Laboratory Technician

Biomix A/S, Odense

Biomix is a bioindustrial company, founded in 2021 as a spin-out from the University of Southern Denmark and the University of Western Australia. We are developing a new generation of natural, microbial solutions for agriculture, food, and health industry. Our areas of interest are biofertilisers and biopesticides for replacement of agrochemicals, as well as solutions for drought, foodwaste, wastewater treatment, and antimicrobial resistance.

We are a highly dedicated team of 12 employees. We are looking for a laboratory technician to join our rapidly growing team.

To be qualified for the position, you must have

- A Laboratory Technology Education (Laborantuddannelse) or equivalent and previous experience working as a laboratory technician, preferably in a corporate R&D environment
- Previous work experience from a microbiological laboratory
- Attention to structure, detail, and quality
- Flexibility to handle both simple and complex tasks
- The ability to systematically troubleshoot problems and identify potential solutions
- The ability to work with multiple tasks simultaneously
- Thorough knowledge of safety procedures in microbiology laboratories
- Strong communication skills in English and Danish
- Ability to take initiative and make smart decisions
- Ability to learn new skills and apply them in your daily work

As a person, you are open minded and helpful, and a good colleague. You are passionate about sustainability and want to make a positive impact on our planet.

The position involves

- Assisting on projects in the laboratory
- Performing routine laboratory duties and maintaining laboratory equipment
- Managing laboratory inventory
- Assisting in ordering laboratory supplies and equipment
- Troubleshooting technical problems and seek new solutions within the area of responsibility
- Communicating and discussing results with team and project members
- Engaging in relevant training activities (obtain and provide training)

What we offer

- Good colleagues and a positive work environment
- A workplace, where collaboration and co-decision making is prioritized
- An opportunity to shape the company as it grows
- Opportunities to develop your potential in other areas of interest
- Flexible working hours and a generous vacation package

Our company is located in Odense C, Denmark, and you will be working on-site. The position is full-time starting 1/8. We welcome international applicants, however, you must have a Danish working permit starting 1/8 at the latest.

How to apply

Deadline for applications is **31/5-2022**. Applications must be submitted as **one PDF file**, containing letter of application, CV, exam papers (if relevant), and recommendations, to job@biomix.com. Applications are reviewed as they are received, and interviews will be held on an ongoing basis. The position is full-time vacancy, starting 1/8.

If you would like to know more about us, or the position, please view our website at www.biomix.com. You may contact Morten Østergaard Andersen (E-mail: moa@biomix.com) for further clarification.
